I.O.D.E. Elects Officers

At the recently held annual meeting of the Mons Chapter, the following officers were elected for 1941:

Hon. Regent, Mrs. A. R. Kendrick
Hon. Vice-Regent, Mrs. W. G. Evans
Regent, Mrs. C. Mortimer
First Vice-Regent, Mrs. Wm. McFarquhar
Second Vice-Regent, Mrs. E. G. Ranton
Secretary, Mrs. J. H. Lowrie
Treasurer, Mrs. N. Hunsperger
Educational Secretary, Miss K. Watson
"Echoes" Secretary, Miss Joyce Morgan
Standard Bearer, Mrs. J. F. Stevens

The Mons Chapter has just completed another successful year and thanks the public for its continued support.

While the yearly contributions have been made to educational work, Child Welfare, St. Helena's School, at Poona, India, and other I.O.D.E. activities, the special effort of the chapter at this time is war work. An itemized account of knitted comforts follows:

I.O.D.E. Wool, Red Cross Wool
94 sweaters, 26 sweaters
10 scarves, 26 scarves
6 helmets, 1 helmet
85 prs. socks, 16 prs. socks
2 prs. mitts, 3 prs. gloves
1 pr. wristlets
2 shawls (donated)

In addition, cigarettes were sent overseas to all men from this district.

Large Crowd At I.H.C. Entertainment

The Opera House was crowded throughout the day on Friday when the International Harvester Co. through their local agent, gave their power farming entertainment.

Both in the morning and afternoon moving pictures were shown which, in addition to films of power machinery doing farm and logging work, included rural Alberta scenes, life at the Sarnes Military Camp, and adventures in the wilds of Africa.

Messrs. E. L. Boulton, assistant manager of the Calgary branch, and C. C. Brannon and S. P. Hanson, local representatives, gave descriptions of the machinery at work.

The entertainment was well received and most of the visitors made a day of it. 350 lunches being served by Mr. Oke at noon.

Masonic Bonspiel

The annual Masonic bonspiel conducted by the officers and members of King Hiram Lodge, got under way last Friday morning, with eight rinks entered.

Ideal conditions saw action at the rink, with a display of unusual exertion and lots of good-natured banter bandied back and forth.

Following were the results:

MAIN DRAW

Wordie beat Studer
Brusso " McFarquhar
Reiber " Law
Fisher " Topley

WINNERS SIDE

Brusso beat Wordie
Fisher " Reiber

Final

Fisher beat Brusso

LOSERS SIDE

Studer " McFarquhar
Law " Topley

Final

Law " Studer

Personnel of rinks

Wordie, E. Brinton, W. S. Durrer and Ed Craig.

Studer, Al Thomas, C. McLaughlin and Oscar Rupp.

Brusso, G. E. Parsons, J. Liesemer and S. F. Brown.

McFarquhar, R. Barrett, C. Adshand and F. Ahlgren.

Reiber, T. Morris, D. Jenkins and R. Ahlgren.

Law, S. Krueger, H. Halliday and J. D. Thomas.

Fisher, J. A. Thompson, H. Richardson and C. R. Ford.

Topley, G. Burns and R. McFarlane.

Tom Johnson was pinch-hitter-at-large throughout the 'spiel.

Red Cross, 1941

The Treasurer reports the receipt of the following amounts toward the local funds as results of activities in both the town and district:

H. Gabel, Carnival	\$ 20.00
Red Cross Bridge Club	7.50
Twentieth Century Club	5.21
W. C. T. U. Ladies Aid	5.00
Didsbury Senior	
Red Cross Tea Committee	46.55
C. R. Ford,	
Sale of Operetta Books	7.50
Westcott W.L. teas	3.65
Didsbury Junior	
Red Cross Tea Committee,	
Sale books, magazines, etc.	35.03
Didsbury Detachment A.L.H.	10.00
Didsbury & District	
Bridge & Whist Drive	111.25
Inverness S.D. Jr. Red Cross	7.60

War Savings Campaign

The War Savings campaign in this district is drawing to a close and the canvassers are to be complimented on their successful achievement.

The objective at the commencement of the campaign was set at 800 pledges and the campaign has gone over the top, 325 pledges having been received.

Any who have not yet pledged to buy war savings certificates, or find that they can purchase more than they have pledged, can do so at either the bank or the post office.

The following are the pledges reported up to date:

22 Payroll Pledges with a yearly total of \$1,088.00

80 Bank Pledges with a yearly total of \$5,198.00

223 Honor Pledges with a yearly total of \$6,887.00

Total 325 pledges with a yearly total of \$13,173.00.

Mrs. Cunningham In City Auto Accident

When stepping off the sidewalk on 8th Ave. and 2nd Street W. to board a street car in Calgary last Wednesday, Mrs. J. R. Cunningham was knocked down by an automobile and slightly injured.

The car, driven by an R.C.A.F. man, had passed Mrs. Cunningham who thought it had gone straight on. Instead, the driver backed up and in doing so knocked Mrs. Cunningham down. She was taken to the X-ray clinic, where she had taken treatment just prior to the accident, and it was found she was suffering from a swollen knee.

We are pleased to report that Mrs. Cunningham was able to return home on Saturday.

War Savings Bonspiel Underway

A War Savings bonspiel got underway on Tuesday evening. Each curler entering pays a war savings stamp as entry fees and war savings certificates will be awarded as prizes.

Half the proceeds of the spiel will be given to the Red Cross.

Obituary.

MRS. MARION SMITH

Funeral services for Mrs. Marion Smith, aged 52, were conducted at the Park Memorial Chapel, Calgary, on Saturday, March 1st at 2 p.m., Rev. Alexander Patterson officiating.

The pallbearers were all from Currie Barracks, men who work with Mrs. Smith's husband, Sergt. W. M. Smith. They were Sergeant-Major McKenzie, Sergeant-Major Beland, Quartermaster-Sergeant Maiden, Sergeant Dingle and Sergeant Speechley. Interment was made in Queen's Park cemetery.

Mrs. Smith, who had many friends at Didsbury, went to Calgary shortly after her husband, who formerly was manager of the North End Lumber Yard and later operated a tailoring establishment here, enlisted in the Calgary Highlanders.

We join with friends in extending to Sergeant Smith our sympathy in his bereavement.

Ladies' Bonspiel

The ladies of the Didsbury Curling Club organized a bonspiel Thursday last, in which rinks from Bowden, Olds, Crossfield, Carstairs and Didsbury were represented. The winners were:

MAIN EVENT

1st Mrs. D. A. Edwards
2nd Mrs. Jay Tuggle
3rd Miss Grace Ranton
4th Mrs. W. J. McCoy

SECONDARY EVENT

1st Mrs. Harrison, Crossfield
2nd Mrs. G. Foster, Carstairs
3rd Mrs. J. Topley, Didsbury
4th Mrs. L. Mills, Carstairs

Personnel of rinks

Mrs. Edwards, Mrs. I. L. Klein, Mrs. H. C. Rennie and Mrs. Brinton.

Mrs. Jay Tuggle, Mrs. Tom Morris, Mrs. Buhr and Mrs. Archie Weber.

Grace Ranton, Mrs. F. Stevens, Mrs. Evans and Mrs. Fawcett.

Mrs. McCoy, Mrs. Durant, Mrs. C. R. Ford and Mrs. M. Ringheim.

Mrs. Harrison, Mrs. Tredaway, Mrs. Nichol and Mrs. Devins.

Mrs. Foster, Mrs. Chrystal, Miss Gladys Weiss and Mrs. Wishart.

Mrs. Topley, Mrs. Law, Mrs. Garner and Mrs. Frey.

Mrs. Mills, Miss Gladys Main, Mrs. Buschart and Miss D. Chrystal.

Mrs. Fife's rink from Olds, comprising Mrs. Fife, Mrs. N. McLeod, Mrs. Currie and Mrs. Buehler just failed to reach the jewelry.

R.C.A.F. to Recruit Here Thursday

An officer of the Royal Canadian Air Force will visit Didsbury next Thursday, March 13th, from 9 a.m. to 12 noon for the purpose of interviewing persons desirous of making application for enlistment in the Air Force.

Sergt. Ross A. G. Fiddes Weds Laura V. Buhr

From the Toronto Globe

Tara, Feb. 19 (Special).—A wedding was held Monday at the home of the bridegroom's parents, when Miss Laura Violet Buhr, eldest daughter of Mr. and Mrs. Ed Buhr of Didsbury, Alberta, was married to Sergeant Ross A. G. Fiddes, R.C.A.F., elder son of Mr. and Mrs. H. E. Fiddes of Tara. Rev. James E. Merrick conducted the ceremony in the presence of the immediate family.

The bride wore a frock of dusky rose crepe and was attended by Miss Aileen Fiddes, sister of the bridegroom. Mr. Bert Fiddes was groomsman for his brother.

Sergeant Fiddes graduated several weeks ago from the Wireless School in Calgary and received his wings on Saturday at the Bombing School at Fingal. He leaves shortly for an East coast station.

Equitability Of Sacrifice

Never in Canadian history have the people of this country been so united in the prosecution of a national objective as they are at the present time in their determination to bend all their resources to the winning of the current war; never before have they been so willing to make great sacrifices in a common cause as they are at the present time.

When the issues at stake in this conflict between the democracies and totalitarians are given the fullest consideration and their due weight, the desirability, nay more than that, the utmost necessity, for complete accord and unity from the Atlantic to the Pacific, is apparent if our heritage of liberty and freedom is to be conserved.

The force of the Canadian war effort is going to be determined by the extent to which the present high morale of the people is maintained. The maintenance of a high degree of morale, so essential to give full effect to the blows we deliver at the enemy, will be decided by the extent to which we are prepared to make sacrifices and the extent to which we are willing to equalize the burden of these sacrifices as between the east and the west, as between the producer and the consumer, as between one industry and another.

Apart from the contribution of man power to the armed forces for services overseas on a voluntary basis and for home defence as a compulsory measure, the Canadian war effort is confined to the provision of the sinews of warfare in the form of fighting craft, arms and munitions and foodstuffs to maintain British and our own fighting forces and their civilian populations.

Our Special Contribution

For various reasons which need not be entered into here but which are well known, the task of creating fighting craft and the manufacture of munitions and arms is of necessity largely confined to the industrial east and in a lesser degree to British Columbia. The war products which are being turned out in the factories and workshops and shipyards of eastern Canada are required for immediate use. Hence they are immediately convertible into cash which has already brought and is continuing to bring to the east a high degree of prosperity and an increasing purchasing power to the people of the east.

For various reasons, and equally well known, the war task of the prairie provinces is confined to the provision of foodstuffs for the fighting men and the civilian populations. For much of this Western agricultural produce, and particularly wheat, there is no immediate export demand and may not be for some considerable time. Hence, the prairie provinces, while making great sacrifices in the national effort are not only not sharing in the prosperity which the east enjoys, but are sustaining losses occasioned by continued production of commodities, much of which must be stored for future use and for some of which there is only a limited demand in a restricted area and of doing so in the face of rising costs of production.

Disparity Increasing

The situation was fairly summarized in a brief recently submitted to the federal government by the Canadian Federation of Agriculture in the following words:

"Victory cannot be achieved without sacrifices. All classes of our people will be called upon to make sacrifices and the agricultural industry is ready and willing to bear its full share of the heavy load which Canada has shouldered. It is vital, from consideration of national unity, that no one class shall be called upon to carry an undue share of the burden and that there should be equality of sacrifice by all classes.

"As the tempo of industrial production is speeded up to meet the urgent need for munitions and war supplies, there is a grave danger that the present disparity between agricultural and industrial income will increase. More than three million Canadians now live on farms and engage in the production of food supplies. Another two million live in rural areas directly dependent on the farm income for their livelihood. But, while there has been a tremendous rise in the national income, agriculture's share of the national income continues to decline, in the face of steadily increasing cost of production."

The brief refers to the necessity of continued agricultural production as an important factor in winning the war and to supply the needs of hungry countries after the war and points out the need, if agriculture is to continue to play its full share in this effort, of the following two policies:

- "1. There must be an immediate and substantial increase of farm income in relation to the national income; and
- "2. A properly co-ordinated national policy for agriculture, including marketing as well as production, must be instituted."

A United Voice

Perhaps never in the history of the country has Canadian agriculture been so united in its representations for removal of inequalities as evidenced in the brief of the Canadian Federation of Agriculture, which speaks for co-operative and producer organizations of every province of the Dominion, including British Columbia and the Maritimes.

Equalization of the burden of war sacrifices as between all the entities which make up the nation is not an unreasonable request and when agriculture speaks with such unanimous voice, as it has now done, it would appear that in the interests of continued national unity, if for no other reason, that the general principles in the brief, if not all the specific requests, will be given due weight by the government and particularly by the industrial east. The measure which the industrial east is willing to accord to agriculture's suggestions will largely determine the extent to which the government can go in a request for a more equitable distribution of the sacrifices occasioned by the war.

Persecution Of Poles

Russia Has Moved Thousands Into Infertile Areas Of Siberia

More than 100,000 Poles from Russian-occupied parts of Poland have been moved into infertile parts of Siberia where they live in vermin-infested hovels, Victor Podoski, consul-general for Poland in Canada, said on his arrival in Toronto.

Of German-occupied Poland he said:

"It is definitely proved that 200,000 men and women are actually in concentration camps, 100,000 more are in prisons, and 2,000,000 are utilized by the Germans as forced labor."

HOUSEFROCK HAS NOVELTY YOKES

By Anne Adams

Every busy housewife appreciates the "lift" that a becoming at-home frock gives. This Anne Adams new-comer, Pattern 4670, is brimful of spirits. The waist-girdle will make you look really tiny through the middle. Take special note of those very striking yokes—shaped not only for decorative effect but also to hold the gathered softness just where you need it. Darts or gathers above the waist-seam complete the good work. The neckline is straight or curved. Generous "hand-angle" pockets may be added to the skirt: ric-rac or lace edging looks gay. If you're a liking for color, try the girdle, pockets and yokes all in brilliant contrast! Order this style TO-DAY!

Pattern 4670 is available in misses' and women's sizes 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38 and 40. Size 16 takes 3 yards 35 inch fabric and 2 1/2 yards ric-rac.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this Anne Adams pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg.

Now Use Improved Vicks VapoRub

To Relieve Misery of Colds

Mothers everywhere are discovering how easy it is to relieve misery of colds with a "VapoRub Massage"—relieve coughing, muscular soreness or tightness.

With this more thorough treatment, the poultice-and-vapor action of Vicks VapoRub more effectively PENETRATES irritated air passages with soothing medicinal vapors... STIMULATES chest and back like a warming poultice or plaster... STARTS RELIEVING misery right away! Results delight even old friends of VapoRub.

TO GET a "VapoRub Massage" with all its benefits—massage VapoRub for 3 minutes on IMPORTANT RIB-AREA OF BACK as well as throat and chest—spread a thick layer on chest, cover with a warm cloth. BE SURE to use genuine, time-tested VICKS VAPORUB.

THERE'S A TREAT WAITING ON YOUR OUTSIDE WINDOW-SILL

• Believe it or not, the smoothest ice cream you ever tasted is just waiting to be made! It's as easy as this—one package Jell-O Ice Cream Powder, a quart of half milk and half cream; mix, put bowl outside on window-sill in freezing weather, stir two or three times while freezing and Presto! you have ten to twelve servings of ice cream. Jell-O Ice Cream Powder at your grocer's, comes in 5 flavours. Cut out this recipe and order several packages.

JELLO ICE CREAM POWDER

Tungsten Orebody

Precious Metallic Elements Located At Outpost Island, N.W.T.

Threatened shortage of tungsten, so essential for the defence program of Canada and the United States, focusses attention on Canada's only commercial tungsten orebody located at Outpost Island, N. W.T. Within the last six months, marked improvement in the recovery of tungsten has been obtained by the Department of Mines at Ottawa during test work on Great Slave Lake ores. Norman Byrne, the engineer who designed the Slave Lake Mill had predicted use of a method employing flotation, some weeks prior to its announcement by Ottawa.

Before the discovery and present development of Canada's first commercial tungsten orebody, sources of the precious metallic element were China, Burma, and the United States. United States, however, was largely dependent on imports and closing of the Burma Road through French Indo-China will cut off her major source of supply. Ore tonnage data, for the major producers mentioned were, according to latest figures: China, approximately 18,000 tons, Burma 6,000 and United States 3,200 tons. Portugal, Argentina and Bolivia were lesser producers.

Among strategic war materials, tungsten rates highly. It is essential to the manufacture of high speed tool steels which will maintain cutting edge at red heat. Cemented tungsten carbides are also widely used commercially, especially during recent years, for tipping the cutting edges of tools, such as diamond drills are made. Best known use of the material, however, is in electrical lighting filaments and radio filaments.

Aware of the vital war importance of the metal, Canadian mining experts at Outpost Island, N.W.T., are working at top speed. Just four months from date of arrival of the first construction crew and materials the mill was in operation. In this brief space of time a complete mining and milling plant was built, machinery installed, the mine pumped out and essential underground work accomplished.

Pensioners Help War Cause

Contributions, Great And Small, Coming From Many Quarters

Nine more veterans of the Great War have added their names to the growing list of pensioners making monthly free-will contributions to Canada's War Fund. The contributions range from \$5.00 to \$37.50 per month. One pensioner, resident in Toledo, Ohio, returns his total pension received since August 1940.

Students in schools, small communities, societies and clubs all join in offering to the war fund. An Indian, away in North West Territory, sends \$10. From Almirante, Panama, come \$500 in American funds. Instead of making Christmas gifts, pupils in Room 28, Herchmer school, Regina, forward \$2.25. Three doctors send fees from medical examinations. A resident of Dugald, Manitoba, contributes a five dollar gold piece, gift of a golden wedding anniversary. A schoolboy in Great Falls, Manitoba, gives a dollar won at school for reciting. An anonymous gift of \$3,000 represents "profits made by a company."

Wellwishers across the Dominion and scattered over the United States add their contributions.

Secret Is Guarded

British Chemists Discover New Method Of Making Gasoline Substitute

The London Daily Mail said that three British chemists have discovered a new and better method of making methane, a substitute for gasoline, from coal gas.

The Mail said it was long known that methane is present in coal gas, but the new production method is known only to Britain. The processes and other details are a closely-guarded secret, the newspaper said.

LOOK OUT FOR YOUR LIVER

Buck it up right now and feel like a million!

Your liver is the largest organ in your body and most important to your health. It pours out bile to digest food, gets rid of waste, supplies new energy, allows proper nourishment to reach your blood. When your liver gets out of order food decomposes in your intestines. You become constipated, stomach and kidneys can't work properly. You feel "rotten"—headachy, backachy, dizzy, dragged out all the time. For over 35 years thousands have won prompt relief from these miseries—with Fruit-a-tives. So can you now. Try Fruit-a-tives—you'll be simply delighted how quickly you'll feel like a new person, happy and well again. 25c, 50c.

Canada's Largest Selling Liver Tablets

Norwegians Must Register

The Nazi-dominated Quisling government in Norway has ordered all Norwegians more than 15 years of age to register, despatches from German-held Oslo reported, as a means of strengthening its control, particularly in western Norway, where street fighting has been reported recently.

The age limit for British pilot recruits has been raised from 28 to 31 years.

New Milling Process To Produce Flour Containing All The Necessary Vitamins

Proposals to fortify white flour by adding thiamin to increase the vitamin B-1 content met opposition from the Canadian council on nutrition and its advisory committee to the Dominion council of health.

At a meeting held in December these bodies discussed the whole situation, officials said, "and were of the opinion that no such policy of reinforcing flour should be countenanced in this country."

"They are of the opinion," one official said, "that all of the essential helpful ingredients of whole wheat can now be milled into a white flour that will bake a white loaf containing, in the required quantities, vitamins and other nutritional necessities."

Those who support fortifying flour by adding thiamin have contended that the modern methods of milling take out of the flour the "vitamin B complex" when the germ and husks of wheat are removed. Accordingly, since most people insist on white flour instead of whole wheat flour these people are not getting sufficient of such vitamins in their diet. By adding thiamin at least one part of the vitamin B complex, namely B-1, is added.

The position taken by the nutrition council, its spokesman said, was that thiamin added only one of the eight members of vitamin B group and that by a new process of milling wheat, leaving in the germ and some of the outerskin, sufficient vitamins of the B group could be retained in the flour when hard rust resistant wheat is used.

One of the common difficulties to retaining the germ in flour is that it causes fermentation when flour is held for any considerable time. Dr. L. H. Newman, Dominion cerealist who is inclined to favor fortifying flour with thiamin is conducting tests to ascertain to what extent by new milling methods the germ may be left in the flour and yet have the product keep long enough for the customary processes of marketing.

He said that until this research had been farther advanced he could not say how successful it would be.

The danger of fermentation is avoided in whole wheat flour because since the demand is small the flour is ground only in sufficient quantities that it will be baked soon after grinding.

The department of pensions and national health, however, seems confident that the new milling process will overcome germination difficulties. An official said that last Oct. 3 it informed the British ministry of health "that we had been able to produce from rust resisting strains of Canadian western wheat, of which there was an ample quantity available, a white flour producing a light creamy-white loaf containing all of the vitamin or other active principles in sufficient quantity to meet nutrition requirements without re-addition of any synthetic agents and a flour which would not spoil within a reasonable period of marketing."

Just One Of Hundreds

Story About Norwegian Soldier Could Apply To Many

It is almost embarrassing to have a young child in London these days.

I took my boy, aged 18 months, to the May Fair, for a quiet lunch. In the lounge afterwards I noticed a man, in the early twenties, six feet tall, looking at him with insistent interest.

At last, unable to contain his feelings any longer, he came over and asked permission to take the child in his arms.

"I'm Norwegian," he said. "I've got a little fellow like yours at home, but I've had no news of him for over six months, and the sight of this chap . . ."

There were tears in his eyes as he spoke.

He made no excuse for them, but said simply: "I'm a flying officer. Next week I'm going out to Canada to instruct fellow Norwegians who will soon be flying with your R.A.F."

—London Daily Sketch.

Feast For British Tars

Larder Well Filled While Battleship Was In U.S. Harbor

The 1,500 men and 80 officers who brought Lord Halifax, new British Ambassador, to Annapolis, Md., took away a good big taste of the United States.

Loaded onto the battleship King George V., before it headed back down Chesapeake Bay on Jan. 25 was \$5,000 worth of food, including such delicacies as eggs, fruit and fresh vegetables. The supplies were not expected to last long, but they at least gave British tars a series of feasts such as they have not known since the blitzkrieg began.

First thing the ship's officers asked for when they landed was a dish of fried eggs and some onions. The latter, they said, they had not tasted in six months.

Purchases made in Baltimore, Md., and Annapolis markets, with advice of supply officers at the Naval Academy included:

One ton of carrots, 1,200 pumpkins, 9,000 apples, 160 gallons of tomato puree, 2,000 cans of tomatoes, 600 cans of cooked ham, 24,000 tins of beans, 60 tins of blackberries, 6 tins of loganberries, 400 pounds of macaroni, 200 pounds of tea, 1,000 tins of apricots, 1,000 tins of pineapple, 2 tons of onions, 1,200 pounds of beets, 8,000 pounds of cabbage, 1,100 heads of cauliflower, 1,200 pounds of tomatoes and 5,000 pounds of Brussels sprouts.

Also 3,580 oranges, 1,440 lemons, 2,000 grapefruit, 35 pounds of bananas, 14,000 eggs, and one ton of butter.

Awarded The George Cross

Woman Drove Petrol Truck Through Burning Streets In Leicester

War's spotlight was turned on the women of England.

Leicester, centre of the hosiery industry and now in the doldrums, went under survey to determine the number of women workers who can be transferred to war industries.

Every manufacturer has been asked to release a quota to employees. It is expected that this will result in the immediate conversion of several hundred fashions of hosiery and clerks into makers of munitions.

The hero of the hour was Gillian Tanner, comely 21-year-old Gloucester member of the Auxiliary Fire Service. She was awarded the George Medal for driving a petrol lorry through streets studded with large fires.

She raced from blaze to blaze refueling fire pumps. Nazi raiders were raining high explosives and incendiary bombs over the area at the time. But while the petrol was unloaded at scores of pumps she coolly knitted socks for other members of the A.F.S.

"Knitting is soothing," she said.

Meantime the Auxiliary Territorial Service appealed for 20,000 recruits. Some of the khaki-skirted girls are wanted for hush-hush jobs. Others will operate teleprinters, drive lorries, or cook for the troops.

Release Danish Ships

Expect That 38 Vessels Lying Idle In U.S. Will Be Used As Cargo Vessels

The New York World-Telegram said that 38 Danish ships totalling 250,000 tons—now lying idle in United States ports soon would be released to carry cargoes for Great Britain, subject to approval by the United States government.

In addition, the paper continued, it was believed 20 other vessels, totalling 200,000 tons, in South American ports would be similarly released.

The paper went on to say that it had learned through "a reliable Norwegian source" that a group of Danes in Britain had been working with Prime Minister Churchill to set up a temporary Danish government to be known as the "National Danish Council."

This body, the paper related, would assume responsibility for the release of the vessels.

The Corvette Comes Back

Useful Little Boats Used Before Advent Of Armed Cruiser

In the days of sailing ships, says the New York Times, the eyes of the fleet, the scout spying out the movements of the enemy, the guardians of merchant convoys and the harriers of enemy shipping were the corvettes, swift, lightly armed war vessels capable of tackling anything less formidable than the mighty ships of the line and able easily to outmanoeuvre and outrun those. With the coming of steam and the advent of the armed cruiser they vanished and their type was almost forgotten. Now the exigencies of this war have brought the corvettes back again.

Canada has led the way in reproducing this old type. The Dominion needed coast patrol boats in a hurry and was none too well equipped in the matter of shipyards for building heavy warcraft. A type of ship, somewhat analogous to the submarine chasers of the last war, half the size of a destroyer and needing a much smaller personnel, could be constructed quickly and seemed likely to fill the bill. The Canadians began building these with great success. In remembrance of the old-time vessels they were called corvettes.

Almost simultaneously Great Britain herself began similar construction with a different purpose. The shortage of cruisers and destroyers was leaving the convoys on which the kingdom depends for its existence almost at the mercy of ocean-going submarines far out from shore and air bombers nearer home. Armed merchant vessels did not fill the bill. They proved to be easy targets, slow in manoeuvring and tempting to bombers and surface raiders. But it takes time, a year, to build a destroyer—to build a cruiser even longer. Mass production can produce a large number of corvettes in a few months.

The corvette can scarcely deal with a surface raider of size and gunpower, although precedent seems to indicate that several of the little fighters might not hesitate to tackle such an enemy, very much as the Ajax and the Essex took on the German pocket battleship von Spee. Such surface raiders, however, are comparatively few. The submarine is the greater danger and to deal with submarines the tiny corvettes, fitted out with the same gear as destroyers and presenting an even smaller target to gun or torpedo, are ideal.

Approved By Admiralty

Standard Ships Will Soon Be Constructed On Large Scale

On the Home Front, an important item of news is that standard ships—made in sections in steelworks and put together in shipyards—have been approved by the Admiralty. Their construction will soon be resumed on a large scale.

Old yards, closed for years, will be reopened. Many steel constructional firms will be engaged on the production of these "fabricated" vessels which can be turned out on a mass production scale like cars. Overseas Daily Mail.

Wavell's Libyan Campaign Covers Land That Was Once Garden Spot Of The World

When the British advanced toward Derna from Tobruk, where sand storms delayed the assault, they left the desert and came into one of the pleasantest and most ancient garden spots of the world. In fact, says an article in the New York Times, it was in this "evening land of the westward sun" that the old Greeks located the Gardens of the Hesperides. There Hercules, as one of his labors, seized the golden apples of Hera from the dragon of the hundred heads.

The whole Mediterranean promontory that swings from Derna around to Benghazi and the Gulf of Sidra is a fertile crescent of rolling tableland bordered only well to the south by waterless wastes. Derna, now in the hands of British forces, is watered by never-failing springs, and the rainfall over the rest of the region is so heavy that irrigation is required only about once in five years.

The climate and the prospect suggest Central Italy. Indeed, Italy in a single generation has made Cyrenaica the showplace of all her colonies. Vineyards and olive groves dot the landscape. Cypress, juniper and ilex grow luxuriantly. One of the chief crops is a superior type of barley much in demand by Scotch distillers. Derna is no longer the dilapidated Senussi stronghold over which General William Eaton raised the American flag for a brief interval in 1805. It is an attractive modern town. Benghazi, farther west, is a handsome city with a peacetime population of more than 65,000. Its mosques and minarets indicate that it is still considered a holy place by the tribesmen.

In ancient times Syrenaica was even more prosperous than it is today. Then the coast had neither sunk nor silted and the fertile plain extended much deeper into the desert. It was there in the seventh century, B.C., that the Greeks founded the city that was to become the greatest of all Greek communities overseas. Indeed, Cyrene was known as "the Athens of Africa." At the peak of its power it was the metropolis of a vast granary that fed the homeland in famine years. It had a population of more than 100,000 and among its famous citizens were Erasthenes, the geographer, and Callimachus, the poet. Most of its ruins still lie buried in the coastal sands behind the port of Mersa Susa, but the Italians have done much excavation and unearthed some of the loveliest statues of antiquity.

Two strange plants are associated with ancient Cyrenaica. One was silphium, to which Cyrene owed its prosperity more than any other product of the soil. Silphium was a medicinal herb regarded by the whole Mediterranean world as a sovereign cure for almost every ailment, from cramp and open wounds to the bites of venomous snakes and mad dogs.

So great was the demand for it that it became literally worth its weight in silver. Finally the Romans taxed the crop so heavily that the natives systematically destroyed the plant. It is now extinct. A weed that distantly resembles it still thrives in the pastures, but it is poisonous and camels have to be muzzled against nibbling it. Not long ago an Italian physician was reported to have found genuine silphium in a valley near Benghazi.

The other plant was the Lotus for Cyrenaica was the fabled land of the Lotus Eaters. It was here that the mariners of Ulysses, having tasted the mysterious fruit, were content to remain "with half-shut eyes ever to seem falling asleep in a half dream." Herodotus declared that the lotus had a sweet taste like the fruit of the date palm. But nobody to-day is certain what it was. It may have been the shrub lotus, which bears a more or less palatable berry, or a kind of clover.

Benghazi, the Berenice of the Ptolemies, is an even older site than Cyrene and perhaps was the first capital of the Lotus Eaters. Its origin is shrouded deep in myth. It was in the country back of this town that the Gardens of the Hesperides were supposed to lie, the goal of all happy spirits. It was at Benghazi also that the River Lethe poured its waters of forgetfulness into the underworld. "Here Lethe's stream," says the poet, "from secret springs below rose to the light; here, heavily and slow, the silent, dull, forgetful waters flow."

The legend of the oblivion conferred by its waters may be connected with similar qualities attributed to the lotus, but the river itself is no myth. A stream, believed to be the original Lethe, rises near Benghazi today and is finally lost amid underground caverns. It is not certain, however, that its waters will help the Italians forget their present troubles.

Diplomatic Relations

Reported United States And New Zealand May Collaborate

The United States and New Zealand are planning to establish direct diplomatic relations in a move characterized at Washington as presaging closer and more friendly collaboration in the increasingly important south Pacific.

Viscount Halifax, British ambassador, is now conducting conversations with the state department, it was learned, looking to establishment of legations and exchange of ministers in the immediate future.

New Zealand is the only British dominion not represented in Washington by its own minister. The country's interests heretofore have been represented by the British embassy.

New Zealand's strategic importance in the south Pacific is enhanced by its possession or administration of islands and territories which stretch from just south of Hawaii to the Antarctic. New Zealand administers a number of Germany's old colonies in this important naval zone under mandate from the League of Nations. Japan has mandate over some of the others.

Former Governor Of Bengal

Had Reputation Of Being Most Shot At Man In World

The News of the World says: Sir John Anderson, Lord President of the Council, who has taken over the task of straightening out the coal transport muddle, has earned a name for himself as "the most shot at man in the world." While he was Governor of Bengal he had numerous attempts made on his life.

During his period as Governor, Sir John had a very strange pet. It was a young Himalayan bear. It lived in Government House stables among the horses, and was allowed to walk round the gardens. It wore a special "pass" round its neck.

One tree can make a million matches, but one match can destroy a million trees.

His And Hers—Smart Towel Trend

Household Arts by Alice Brooks

Something New in Easy Stitchery

PATTERN 6876

Here's easy and effective stitchery that tells who's who! Put these "His and Hers" and "Mr. and Mrs." monograms on towels and pillow cases. Just the thing for that shower. Pattern 6876 contains a transfer pattern of 12 motifs averaging 5 x 6 1/2 inches; illustrations of stitches; materials needed.

To obtain this pattern send 20 cents in coins (stamps cannot be accepted) to Household Arts Department, Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

There is no Alice Brooks pattern book published

Queen Replies To Red Cross Offer

Her Majesty The Queen has cabled the Canadian Red Cross Society that she herself will be "happy to accept" the great quantities of supplies and comforts which the women of Canada have been making since Christmas to be distributed among the women's voluntary services in England. The cable, sent by a lady-in-waiting at Buckingham Palace, said, "The Queen deeply touched and happy to accept generous offer contained in your letter."

This last reference was to a communication sent to Her Majesty and signed by Mrs. H. P. Plumtre as chairman of War Activities, and by Mrs. Wallace Campbell, chairman of National Women's War Work Committee. Their letter informed the Queen that women across Canada had begun to make special supplies equipment, woollen comforts, clothing, toilet essentials and personal comforts for British women volunteers whose devotion to duty since the Blitzkrieg has meant bitter hardship and suffering. The Red Cross requested her majesty to accept the Canadian supplies which would be placed at her disposal by the Overseas Committee in London, and to distribute them wherever they were needed most.

The Queen has on more than one occasion expressed concern for the plight of some million and a half women volunteers who have been exposed to the full force of the Battle of Britain. As a disciplined and courageous army constantly in the line of fire, they have received almost less acclaim than any branch of the fighting service. Under Lady Reading's Women's Voluntary Service for civil defence there are a million women enrolled in a wide diversity of jobs. They serve as fire fighters, transport drivers, A.R.P. wardens, ambulance drivers, canteen workers, first aid nurses. They are to be seen on rooftops all over England as fire spotters and they stand watch steadfastly in cold and wet, through day and through night.

Corps of them have been specially trained to shepherd evacuee children to new homes and to segregate the bewildered refugees from Europe who have found shelter in England's air raids from even worse brutalities in Europe. Women volunteers have stood unflinchingly through the worst of the bombings and afterwards they have shown even greater courage by working shoulder to shoulder with the men digging dismembered limbs and lifeless bodies from the rubble and debris of shattered buildings.

Women workers of the Canadian Red Cross, have, as it were, taken under their wing in addition to the sailors, flyers, soldiers and refugees, the dauntless women volunteers in Britain and are supplying them with ample quantities of knitted garments and laundry bags, small pillows, bed socks and personal comforts. Shipments have gone overseas since Christmas and henceforth will be distributed at the discretion of the Queen to those centres where the need is greatest.

Aircraft Plant for Edmonton

Edmonton's new aircraft overhaul plant, now being constructed in connection with the Commonwealth Air Training scheme, will cost the Federal Government \$479,787, according to Ottawa reports. Completion is expected within a few weeks, when Mackenzie Air Service will assume direction of the under taking. It is expected that 500 men will be employed in this, the greatest repair depot of its kind in the west.

Evangelical Church Notes

Next Sunday morning the Pastor will speak from the subject "The Effort of Faith." In the evening the theme will be "God's Balances."

We invite you to come and worship with us, and to join your prayers with ours on Wednesday evening. "More things are wrought by prayer than this world dreams of."

O.S.A. Experimental Union

The Olds School of Agriculture Experimental Union for 1941 again has available for distribution some excellent seeds and plants of field and garden crops. These are listed below. Each member may make five selections.

Anyone interested may become a member of the Experimental Union by paying an annual membership fee of \$1.00. Members of the O.S.A. Alumni Association may make selections without fee.

- 1 Potatoes, 25 eyes, Vick's Early
- 2 Potatoes, 25 eyes, Bovee
- 3 Potatoes, 25 eyes, Kathadin

- 4 Red Wing Flax, 2 lbs.
- 5 Brome Grass, Parkland, 1 lb.
- 6 Timothy, Swallow, 1 lb.
- 7 Creeping Red Fescue, 1/2 lb.
- 8 Jerusalem Artichoke Tubers, 1 lb.

- 9 Alberta Brown Beans, 1/2 lb.
- 10 Caragana Seedlings, 100
- 11 Garden Peas, 3 varieties
- 12 Garden Beans, 3 varieties
- 13 Perennial Flower Roots, 5 dwarf to medium
- 14 Perennial Flower Roots, 5 medium to tall
- 15 Lillies, 3
- 16 Aconitum (Monkshood) Perennial, 3 varieties
- 17 Climbing Vines, 2
- 18 Rhubarb Roots, 2
- 19 Herbert Raspberries, 12
- 20 Native Plum Seeds, 12
- 21 Butternut Seeds, 4

Our supply of some of this material is quite limited, some substitution may be necessary.

We have limited amounts of seed of a number of varieties of wheat, oats, barley and peas, but nothing strikingly new. Members who are interested are asked to write.

Orders will not be accepted after April 5th.

Membership fee of \$1.00, which includes shipping charges, must accompany selections. When not shipped, 65c.

Plant CANADIAN
CERTIFIED SEED

GOOD seed is the first requirement for an excellent
crop... because only good seed will grow vigorous
and productive plants.

Canadian Certified Seed Potatoes are good seed potatoes.
By planting them, higher-quality, cleaner, smoother,
more uniform potatoes than those grown from ordinary
seed stock will be produced.

So, this season, to harvest finer potatoes - and more of
them, plant Canadian Certified Seed.

Be sure to select the variety most suitable for your locality.
Ask the District Government Inspector, Plant Protection
Division, for full information and list of nearest distri-
butors.

Notes From the West

The Elkton Red Cross Group met at the home of Mrs. O. Blain last Thursday, when the comforter was finished and turned in to the Red Cross on Saturday. Mrs. McGregor was winner of the quilt. The next meeting will be with Mrs. W. Bantling on the 13th, when quilting will again be the order of the day.

Mr. and Mrs. H. Miller and family were guests last week of the latter's parents, Mr. and Mrs. H. Barnard. Thursday night they were visitors with Mr. and Mrs. O. Krebs. Mrs. Miller makes her home at Condo, Alberta, while her husband is stationed at Vancouver.

Mr. and Mrs. Sid Wright entertained on Saturday evening in honor of their son David's 21st birthday. Among those present were Mr. and Mrs. A. Mack of Calgary and Mr. Mrs. Allan McRae of Claresholm.

Mr. Wilbert Berscht, who had been confined to the hospital at Red Deer with an attack of pneumonia following measles, arrived home on Saturday last.

Corporal E. Lowrie spent the weekend leave with his family at Inverness.

For best values in good heavy work shoes—buy at T. E. Scott's.

Westcott W.I.

The February meeting was held at the home of Mrs. C. Vogel with a splendid attendance and several visitors. Roll Call was answered by giving a poultry hint. Mrs. Jas. Hughes gave a paper on Agriculture, stressing the value of the garden to every home. Mrs. Eckstrand reviewed the first lesson of the Agriculture course supplied by the Department of Agriculture. Mrs. Bowen had the review of the book "Inside Europe," this month. After an interesting quiz lunch was served by the hostess. The next meeting will be held at Mrs. A. Robertson's where a comforter will be tacked for the refugees.

The World of Wheat

By H. G. L. STRANGE

The School Trustees of Saskatchewan recently held their annual convention at Saskatoon. I was fortunate enough to be present and I could not help but notice the intense desire displayed by the hundreds of delegates, both men and women, to do whatever each could to advance the education and wellbeing of the young people of Saskatchewan. This attitude seems particularly commendable when we realize that School Trustees give their services without charge throughout the year and some times even donate sums from their own pockets.

We are now all working in our spare time to help our country in this time of war, but the thought struck me as I looked at the earnest faces of the delegates at Saskatoon, what a fine thing it would be if each one of us in peacetime would donate a few hours a week to the service of Canada. What a fine thing too, it would be if our Members of Parliament and of our legislatures would similarly serve their country without charge except for out-of-pocket expenses.

I have often noted that those who offer their spare time services to fellow-men without remuneration invariably are people of high character, and certainly are inspired with noble and patriotic ideals, in short they are an example to all of us.

Following factors have tended to raise price: Mexico has purchased a further 500,000 bushels of surplus U.S. wheat -- Acreage abandonment in Kansas and Nebraska owing to winds and freezing may exceed 15 per cent -- Despite increased acreage wheat production in Greece below last year -- Portugal is inquiring for a further supply of Canadian wheat.

Following factors have tended to lower price: Estimated U.S. stocks of wheat for export and "carry-over" 382 million bushels -- Surplus wheat and corn stocks in both U.S. and Argentina create serious storage problems -- Political tension in the Balkans threatens further to curtail wheat markets -- Brazilian Government encourages domestic wheat production by legislation.

**FIRING FROM THE HIP**

Experience has proved that the Bren gun is a most effective weapon when used by infantry firing from the hip, therefore this technique has been adopted by the British Army. Here British infantry are seen advancing in line with their Bren guns in hip position.

Around Alberta

Declaring that unless farmers' grain is to be kept in centralized storage for two or three years the growers' equity will be eaten up in charges, Hon. D. B. MacMillan urged in the legislature this week the establishment of farmers' subsidies, such as other industries enjoy.

The Alberta Alaska chain of air bases now under construction was planned by the permanent Canada-U.S. joint defence board, it was learned. Prime Minister King gave the Commons this information on Tuesday. Points named are Grande Prairie, Fort St. John, Fort Nelson, Watson Lake, Whitehorse, Prince George and Smithers. All fields will provide ground and navigation facilities needed, such as to be found at existing airports suitable for major traffic.

Alberta's day of prayer for peace and victory was observed by members of all churches throughout the Province Sunday, March 2. Proclaimed by His Honor the Lieutenant Governor on Thursday, February 27th, the day of intercession was immediately endorsed by clerical heads. Prayers were offered "on behalf of the cause undertaken by the United Kingdom, by the Dominion of Canada and by the other Dominions of the British Commonwealth of Nations and other allied powers, and all those who are offering their lives for our cause and for a speedy, enduring peace founded upon justice, liberty, and truth add the sure foundation of our Christian way of life."

"Don't forget to let our cook get a couple of easy ones!"

Don't Forget the Red Cross

Is YOUR Home PLEDGED TO SAVE FOR PEACE?

February has been set aside as WAR SAVINGS Pledge Month, when every member of every household in Canada will be asked to pledge a definite, substantial sum every week to aid Canada's great war effort.

Every Canadian Family must pledge. This calls for sacrifice, perhaps, but no hardship. What you lend, now, can really be regarded as deferred pay.

GIVE A GENEROUS RESPONSE WHEN YOUR NEIGHBOR —A VOLUNTEER WORKER—CALLS.

BUY WAR SAVINGS CERTIFICATES REGULARLY!

1881 . . . 1941

THE MARQUIS OF LORNE, K.T., G.C.M.G.
GOVERNOR-GENERAL OF CANADA, 1878-1883

60 YEARS AGO A Charter was signed

On February 15, 1881, the Marquis of Lorne, then Governor-General of Canada, signed the charter of the Canadian Pacific Railway. That signature consummated the vision of great Canadian statesmen—Sir John A. Macdonald, D'Arcy McGee, Sir Georges-Étienne Cartier, and Sir Charles Tupper—that the new Dominion of Canada should be linked from Atlantic to Pacific by a trans-continental railway—and implemented the pledge under which British Columbia entered Confederation.

So began a new era in Canadian unity . . . and Empire solidarity . . . for the Railway expanded into a system spanning two oceans and linking three continents. Today—as in 1914-18—a proud responsibility rests on our transportation and communication systems—railway, steamships, freight, express, telegraphs and engineering shops. Canadian Pacific officers and employees everywhere are co-operating—each in his own field—towards the common goal . . . VICTORY. When that goal is reached—and it will be reached—this will be due, in no small measure, to Canada's contribution, and to the vision and foresight of the men who, sixty years ago, planned the construction of the first Canadian trans-continental railway.

CHAPTER VII.

The Monday morning street car seemed a little less crowded than usual. Nancy Thorne found a seat in the corner and huddled there, staring out the window with unseeing eyes.

Through the long afternoon and night one thought had run through her mind like the chorus of a song. She was alone now. There was no one she could trust. It had seemed to her as though impenetrable walls had sprung up between her and the people she loved most.

She held back the threatened tears with a heroic effort. No use in making a spectacle of herself on the street car. Holding her chin high she took out her compact and powdered her nose and brushed back her coppery hair, with a convincing air of calm.

The situation had to be faced, that was all. Tom was in this terrible thing, and so was Pat. No matter what her own feelings might be, she couldn't give them away. She'd have to manage some excuse to Hugo Blake for not doing his work. Maybe she could leave the Bristow plant and go away. A dozen projects, all impractical, ran through her mind.

A passenger getting off the street car left his folded newspaper in the seat beside Nancy, and she picked it up and glanced at it aimlessly.

"STUDENT AND INSTRUCTOR ESCAPE DEATH IN CRASH"

The black headline was like a blow. Quickly she glanced through the rest of the story. There were few details given, only that no cause had been assigned to the accident, and that by some miracle the instructor and student pilot had escaped with minor injuries.

Tom had said—"a lot of unexplained accidents—"

Pat had said—"There's nothing I wouldn't do for money—"

Tom had said—"You're in this up to your neck—"

She closed her eyes and saw that tiny training ship as she had seen it yesterday, circling so gracefully

against the sky. She remembered groups of student pilots as she had seen them, their bronzed smiling faces looking into the sun.

By the time the street car came to a clanging stop before the John Bristow Die-Casting Company, she knew she must keep to her resolve, regardless of what it might do to Pat or to Tom Cantwell.

She climbed wearily up the concrete and iron stairs, punched her card on the time clock and placed it in the rack, and went to her desk.

It was a little before 8, and the other office girls were congregated in small groups, laughing and chatting of the week ends they had spent. One or two of them glanced at Nancy, nodded briefly, looked away again. Annie Burke, with her bright, gamine face, did come up for a cheery greeting, but then the 8 o'clock bell rang and work began.

"Good morning, Miss Ellis," she looked up. John Bristow, his round, ruddy face beaming, was looking down at her. It seemed odd, having him call her by her assumed name.

"Oh—good morning, Mr. Bristow." "I haven't seen you since you started work here. How do you like it?"

She smiled at him. "I like it fine." "That's good. I hope you get along splendidly."

He nodded to her, spoke to several of the other girls in the same friendly fashion, and went in into Grimshaw's office. For just an instant Nancy felt faintly hurt at his cool impersonality. In the next instant she realized that he was being tactful and in her heart she thanked him for it. She was unpopular enough now with the other girls without the added disadvantage of being a favorite of the boss.

The office fairly hummed with work, with the added impetus of the big boss himself being on the premises. Nancy's fingers fairly flew over the keyboard as she tried to keep up with the work Miss Fletcher piled on her desk, realizing as she did so that the added work was being given her in an attempt to make it appear she was getting behind.

"File those right away, Miss Ellis." A frantic moment at the filing cabinets.

"Get those copied in a hurry—they want them downstairs."

A rush back to the typewriter.

"Take those reports into Mr. Grimshaw as soon as you have them done. He wants them right away."

She finished the last one in a breathless rush, gathered them together and knocked at the door of Mr. Grimshaw's office. Through the glass she saw him nod to her to come in, and opened the door.

"... at least the attacks on our trucks have stopped," John Bristow was saying as she entered. "That takes a load off my mind."

"Just put those on the desk, Miss Ellis," the office manager said crisply. He went on talking to John Bristow. "There probably won't be any more attempts. This place is entirely too well protected."

Nancy stole a look at him as she laid the reports in a wire basket before him. He seemed to look ill, very ill. Frightened, too.

"That's what I think," Bristow said. "Now about this other business—"

That was all she heard before the door closed behind her.

"These orders have to be copied quickly, Miss Ellis. All of them have to be out before noon." It was Madge Fletcher again.

Nancy nodded and started back to work, her mind filled with what she had overheard. The attacks on the trucks had ceased, John Bristow said. He believed it was because the protection was so great.

Hugo Blake had said something about new methods—nothing as crude as overturning a truck filled with valuable dies and patterns. That was why the attacks on the trucks had ceased. There was some new, more frightful way. She wished with all her heart that she could warn the friendly, white-haired man who believed his plant was safe.

"Finished with those," Miss Ellis?" She shook her head. "Almost. I'll be done in a few minutes."

"Well, finish them before you go to lunch, and leave them on my desk."

Five minutes after 12. Ten minutes, 15 minutes, 20 minutes past and finally the last one was done. She made a quick check-up for possible errors, found none, and laid the orders in a neat pile on Madge Fletcher's desk. Her head was fairly whirling, her fingers still tingled.

Mr. Grimshaw, she noticed, had not left his office. She could see him through the glass door, still sitting at his desk, his head in his hands. She wondered if she ought to go in and ask if she might do anything for him. No, perhaps it would be better to leave him alone. Since that morning when he had seemed to be warning her to leave her job, he had appeared to avoid her.

She went slowly down the stairs to the lunchroom, now almost deserted. Hugo Blake stood by the door; evidently he had been waiting for her to come down.

"You're late."

She nodded. "I had some extra work to do."

Oh, Well, I have some extra work for you too." He smiled down at her, his round face friendly, his sharp little eyes beaming at her from behind the thick-lensed glasses.

Nancy managed to smile back. "That's good. When?"

"Tonight. Will you be home?"

She nodded.

"Good. I'll telephone you. I want to talk to you tonight—I have something very important for you to do." He smiled once more and left her, going on up the stairs.

She went on into the lunchroom and ordered a glass of milk, too exhausted with work and anxiety to think of food. She sat in the almost empty room sipping the milk slowly, trying to make some order out of the chaos of her thoughts.

Hugo Blake had something important for her to do. That might mean she could learn something important, something she could take to John Bristow as evidence. That was the thing she must do, no matter who it involved. With that accomplished perhaps she could leave here, find a job in some new place. Not that it mattered very much to her what happened now.

She went on back to the office wearily. At the door Tom Cantwell passed her, going in the direction of the machine shops. He barley nodded to her, his lean face looked angry, almost pale. She wondered if by any chance he could have learned what she planned to do. Well, that didn't matter now either.

It was a minute past 1 when she entered the big office already busy and noisy. The clatter of typewriters and rattle of papers seemed to slacken for a moment as she stepped in the door, was was conscious of Madge Fletcher stopping what she was doing to look very

slowly and deliberately at her, up at the clock, and back at her again. Not a word was said, but several other pairs of eyes followed those of the head stenographer.

Her cheeks burning, Nancy sat down at her desk.

"Another set of reports, Miss Ellis. Hurry them, please—Mr. Grimshaw wants them as soon as possible."

Nancy nodded. Again fingers flew against time. Not as rapidly now, however. The morning's activity had drained her of strength.

"You're finally finished? Take them to Mr. Grimshaw."

If she hadn't been late with the reports, Nancy thought a little resentfully, she wouldn't have been asked to deliver them to the office manager.

She opened the door of the inner office and walked in. Mr. Grimshaw still sat at his desk, but now he had buried his face in his arms.

She wondered what she ought to do. If he were asleep, he might resent being waked just to be told that the reports were finished. Or, if there was really an unusual hurry for the work, he might not like it if he weren't waked.

"Mr. Grimshaw—"

There was no response to her timid voice. She laid the pile of reports in the wire basket, hesitated a moment and then tried again, louder.

"Mr. Grimshaw—"

Then she screamed. On Grimshaw's head was a dark red stain.

(To Be Continued)

SELECTED RECIPES

JELL-O CHIFFON PIE

3 egg yolks, slightly beaten
1/2 cup sugar
1 cup water
1 package Lemon or Lime Jell-O
3 tablespoons lemon juice
1 1/2 teaspoons grated lemon rind
Dash of salt
3 egg whites
1 baked 9-inch pie shell

Combine egg yolks and 4 tablespoons sugar in top of double boiler, mixing well. Add water and blend. Cook over hot water until mixture coats spoon, stirring constantly. Remove from fire. Add Jell-O and stir until dissolved. Add lemon juice and rind. Chill until slightly thickened. Add salt to egg whites and beat until foamy; then add remaining 4 tablespoons sugar gradually, and continue beating until stiff. Fold slightly thickened Jell-O into egg whites. Pour into cold baked pie shell. Chill until firm. Serve plain or garnish with border of whipped cream.

BAKED CHEESE FONDUE

1 cup scalded milk
22 Christie's Reception Wafers
1 lb. cheese, flaked
1 tablespoon butter
1/2 teaspoon salt
2 egg yolks, beaten
2 egg whites

Pour scalded milk over crumbled Reception wafers, flaked cheese, butter and salt. Stir this mixture into beaten egg yolks, fold in stiffly beaten egg whites. Pour into buttered baking dish and bake in a moderate oven (375 degrees F.) 20-25 minutes. Six portions. Preparation: 12 minutes.

Served Royal Family

James Ives, coachman for members of the royal family for more than 50 years, died at Windsor, England, recently. He was 74. He drove one of the royal carriages in the coronation procession of King George V. When he retired in 1926 he was given the post of lodge keeper at Bishopgate, main entrance to Royal Lodge, Windsor Great Park.

Mussolini, according to reports, is now unable to make a military move without Hitler's permission. And even then it is subject to veto by the Greeks and the British.

Proud To Be Serving

New Yorker's Son Took Only Job Available In England

Passers-by smile when they notice the insignia of the Women's Volunteer Service on his shoulder, but it is no joke to Francis Blake, 28, New York stock broker's son.

When the war started, Blake, cousin by marriage of Lord Templemore and Lord Hothfield, was determined to serve Britain. Because he was an alien, the civil defence, Red Cross and several other civilian units said "No." The W.V.S. accepted him, and each day Blake drives a truck through the countryside carrying anything from bandages to babies.

HOME SERVICE

CORRECT POISED MANNERS
BEST ROAD TO POPULARITY

Know Right Thing In Public

They belong to the nicest crowd in town—you can see from their poised, gracious manners.

Instead of plunging down the aisle with the girl following him, he courteously asks where she'd like to sit, then states her preference to the usher. And she follows the usher to the seats, while her beau follows her. On leaving the theatre, too, she'll go first up the aisle.

To know such little points, to date and party without nervous moments of doubt and hesitation—what a lot it means to your poise and popularity. But easy to check up on etiquette.

The next time a man takes you out, remember he's your host. Stopping at a restaurant, let him choose the table with the aid of the head waiter. And of course he'll ask what you'd like to have and give your order to the waiter.

If your beau takes you motoring, up to you to suggest going in when you arrive home. For, again, your beau as host wouldn't seem to wish to get rid of his guest.

Know the charming manners that make you a welcome member of any circle. Our 32-page booklet tells the correct thing for parties, dates, the movies, games; when visiting, entertaining, motoring. Gives etiquette of introduction, invitations, telephoning.

Send 15c in coins for your copy of "Etiquette: The Correct Thing To Do" to Home Service Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg, Man.

The following booklets are also available at 15c each:

- 112—"How To Make Slip Covers"
- 127—"The New Way To a Youthful Figure"
- 155—"Glass Gardens and Novelty Indoor Gardens"
- 161—"New Ideas in Making Curtains and Draperies"
- 180—"Quick Course in Piano Playing"
- BB—"Four Designs To Paint On Glass" (Second Series)

Laboratories and their scientific control of oil-well drilling are moving directly to the oil fields.

Canadian War Services Fund

How Objective of \$5,500,000 Was Fixed.
Drive Will Be Made Shortly

There are six institutions embraced in one united drive for funds under the joint name of the Canadian War Services Fund. The objective is \$5,500,000, as detailed below:

Canadian Legion	\$916,100.
Knights of Columbus	705,000.
Salvation Army	1,426,000.
Y. M. C. A.	1,741,000.
Y. W. C. A.	289,965.
I. O. O. F.	100,000.
Total	\$5,178,165

In addition to the above total the sum of \$321,835 is required to make up the \$5,500,000 objective. It has already been announced officially that Canada's war effort is to be greatly increased. This national reserve is deemed by the campaign committee to be necessary to take care of the added requirements that become inevitable as Canada's war effort expands.

Each of these six organizations ordinarily solicits the public separately or conducts individual national drives for funds. In the light of the national economy the Government deemed it necessary and advisable to consolidate appeals to the public as far as might be possible or practicable.

CURLING NOTES

Two Didsbury rinks took part in the ladies bonspiel at Crossfield on Tuesday. Mrs. Edwards' rink was successful in winning 3rd prize in the main event. The rinks were:

Mrs. Edwards, skip, Mrs. Klein, Mrs. Rennie and Mrs. Brinton.
Joyce Morgan, skip, Mrs. Durant, Mrs. Law, Mrs. McCoy.

Recruits Urgently Needed

At no time in the history of the war so far has there been such an urgent need for recruits for the Canadian Army. Military District 13 recruiting officials have stated. There is an immediate demand for 1,750 men in the district, the largest allotment yet required at any one time.

Among the categories for which there is a particularly heavy demand are armorers, fitters, mechanics, blacksmiths, carpenters, driver operators, electricians, machinists, shoemakers and storemen.

Men with mechanical experience are popular today. The army wants them, and the air force too. So do eastern industrialists and manufacturers in the west. Now the Navy has issued a call. Any motor mechanic with three years experience in internal combustion engines may leave Alberta almost immediately on enlistment at the naval barracks, 9722, 102 Street, Edmonton.

CARD OF THANKS

We take this means of thanking neighbors and friends, and the members of the King Hiram Lodge for their expressions of sympathy and the many floral tributes received during our recent bereavement.

Mrs. Fredrick Hyde and family.

Try a Classified.

LOCAL & GENERAL

Mr. Calvin Shannon, of Revelstoke, returned to his home here on Sunday.

Harvey Shantz and his new 3-ton Dodge truck are to be seen on the street these days.

Sergeant W. M. Smith was a visitor with Mr. and Mrs. A. C. Fisher for a few days this week.

Hughie McGhee last week enlisted at Calgary in the Ordnance Corps and expects to be sent East shortly.

The Knox Senior Ladies Aid will meet at the home of Mrs. Ranton this Friday, March 7, at 3 o'clock.

Miss Maisie Hamilton, of Calgary, was the weekend guest of Mr. and Mrs. H. S. Beveridge.

Miss Margaret Hargrave, of the Rosebud Clinic staff, spent the weekend in Calgary.

Mr. Bill Davidson was a weekend visitor at the home of Mr. and Mrs. A. R. Kendrick.

Special bargains in second-hand skating outfits from \$1 up at Scott's.

When you go dancing again—give Rugby Hall a trial. There's a dance on March 14th, music by the Rocky Mountain Rangers.

Saturday Special—Aluminum Double Boilers for only 89c at the Builders' Hardware.

Harold Gulliver, recently transferred to the Royal Bank at Lacombe, spent the weekend with his parents, Mr. and Mrs. R. A. Gulliver.

Mrs. Ellis Barnes left on Friday for Bellingham, Wash., to visit her mother, Mrs. G. Thorp, and other relatives.

Knox Junior Ladies Aid will hold a Spring Bazaar, with a specialty in children's dresses and other fancy work. Watch for announcement.

Mr. Dick Wallace, who for the past three years has had charge of the Atlas Lumber Yard, has been appointed to the 14th Army Tank Corps, with the rank of second-lieutenant. He reports for duty on Monday next.

How about trying one of Scott's big fitting \$1.00 work shirts.

American Cafe Under New Management

Mr. Chow W. Yu has taken over the American Cafe and opened for business on Saturday. Mr. Yu comes here from Calgary, having had many years of experience in this class of business. He extends a hearty welcome to both old and new customers.

The cooking and meals are of a very high quality, and the soft drinks and other lines carried leaves nothing to be desired.

High School Hockey Draws To Close

Regular league games in the Rosebud High School Hockey league came to a close this week. The league includes the towns of Innisfail, Bowden, Olde, Didsbury, Carstairs and Crossfield with each team scheduled to play a home-and-home series with each other team in the league.

Owing to sickness and injuries the Bowden team was forced to withdraw from the league before the end of the season, thus forfeiting their remaining games to their opponents.

Final league standing was as follows:

	W	L	D	P
Crossfield	8	0	2	18
Didsbury	7	3	0	14
Carstairs	5	3	2	12
Olde	4	6	0	8
Bowden	3	7	0	6
Innisfail	1	9	0	2

Playoffs got under way Tuesday night in Didsbury when the local pucksters took the best of a 3-2 decision over Carstairs in the first game of a home-and-home total goal series to decide the right to meet Crossfield in the finals. Goals for the visitors were scored by Himmelreich and Remole while the Didsbury team was paced by Ralph Edwards who scored once unassisted and again in a beautiful three-way play from Levagood and Carleton. The winning tally was notched from centre when George Kercher unleashed a powerful shot that had the Carstairs goalie beaten all the way.

Didsbury line-up: Barrett, Buhr, Cummins, Durrer, Edwards, Carleton, Levagood, Kercher, Holub, and Rinehart.

BIRTHS

At Didsbury General Hospital February 26th, to Pte. and Mrs. Wm. Devolin, a daughter, Carol Joyce.

United Church Notes

At the Knox Church at 7:30 p.m. next Sunday, the Calgary Church Players, under the direction of Mrs. Walter Weher, will present this season's religious drama entitled "As We forgive." Those who heard these young people last year when they presented "Simon, the Leper," will not need any special invitation to see and hear them this year. A more reverent, forceful and beautiful message of the Gospel is seldom seen or heard.

Because we believe that many more will want to hear this message and because we would like to give the opportunity to our friends of the other churches in town, without interfering with their regular service in any way, we have secured the consent of the players to present it twice on Sunday night. So we invite you, who attend other services Sunday evening, to come to the Knox Church at 9 p.m. to hear the Gospel of forgiveness portrayed in a living message. There is no charge but a silver collection will be taken.

The minister will have charge of services at Westerdale and Westcott as usual. He will speak on the "Conflict Within man." Service at Westerdale will be held at the home of Mr. and Mrs. Frank Jackson Sr. at 3 p.m.
